How to view course prerequisites:

For this example to be used POLS 2312 has a prerequisite of POLS 2311 (with a D or better)

Via Goldmine:

To view course prerequisites in Goldmine, you must navigate to the COURSE listing. The example below begins at the SECTION level.

Using the course catalog, navigate to the SECTION (CRN) you are reviewing.
Click on a CRN to view the listing for one individual section (CRN):

Click on the course title (The Study of Politics) to view the course information:

Reviewing the information at end labeled (General Requirements). This lists the OR/AND combination of courses that are required prior to registration for this course.
Via Banner:

Enter the course and registration term into SCAPREQ:
Proceed to the Course Prerequisite Restrictions tab. Review the bottom half of the form labeled Course Area Prerequisite Restrictions. Here are the CAPP prerequisite areas that apply to the course. If none are listed, there are no prerequisites applied.

In most cases, the area will include the subject and number (i.e. POLS-2312). In other cases, it may be a generalized area (i.e. Pre-Cal, Cal-II, Gen CHEM).
To see the detailed requirements for the CAPP area listed, proceed to the SMAAREA form. Click on the area name in “Course Area Prerequisite Restrictions” and select “Query Area Requirements [SMAAREA]” from the Options menu bar.
Proceed to the block labeled “Area Course/Attribute Attachment”. This can be done by selecting “Attach Courses/Attributes to Area” from the Options menu bar. This lists the individual requirements as previously done in SCAPREQ.

To satisfy this area, the student must complete either POSC 3110 or POLS 2310 with a minimum grade of D. The set and subset (first two columns) determine the AND/OR conditions.

Same set, different subset:  OR

A 001, A 002 ... A 001 or A 002

Same set, same subset:  AND

A 001, A 001 ... A 001 and A 001

Different set:  Additional AND

A 001, B 001 ... A 001 and B 001

Other examples

A 001, A 001, A 002, B 001 ... [ (A 001 and A001) OR A002] AND B 001
