PROFESSIONAL SUMMARY:

Clinical pharmacist with a diverse background in developing, implementing, and marketing innovative disease prevention and management programs. Committed to improving the quality of life by creatively anticipating and responding to the culturally diverse environment and working in collaboration with other healthcare professionals. Excellent interpersonal communication and presentation skills (written and verbal) with strong work ethic. Ability to network and positively influence important customers, including thought leaders, large group practices, and pharmacy directors. Extensive experience in academia, including teaching, research, and publishing. Over four years experience speaking for Pharma. Able to prioritize and work effectively in a constantly changing environment and continue to learn new skills in order to stay ahead of the competition.
