

Final Examinations

Exam Policy

Exemption from final examination may not be given. Final examinations are scheduled to be two hours, forty-five minutes in length and take place during the final examination period. It is the policy of the university not to administer a second final examination in the course. It is also university policy that students shall not have more than two final examinations in a single day. In the unlikely event that the examination schedule results in a student having three final examinations on a single day, the faculty member upon the request of the student shall reschedule the second of that student's three examinations.

Listed to the right are the final examination schedules. It is the student's responsibility to check this schedule carefully. Confusion as to the exam time will not be accepted as a valid reason for missing an examination.

Alternate Part of Term Exams

Alternate Part of Term exams follow a different exam schedule. Final exam dates for Alternate Part of Term courses are listed on p. 5 under the *Alternate Part of Term Important Dates*.
