The Medical Professions Institute at UTEP was founded in 2002 to provide information to UTEP students about health profession careers and to promote successful preparation for admission to postgraduate medical, dental, veterinary and other health-related professional schools. MPI is supported by the Office for Undergraduate Studies, the President's Office and generous contributions by the El Paso medical community.

MPI is dedicated to providing students with information and support to assist them in becoming successful applicants to the medical professions. Participation in MPI allows its members to:

- Meet faculty from the professional schools
- Learn about admissions requirements
- Meet other students with common interests and goals
- Serve the El Paso community through service projects
- Visit Texas medical and dental schools
- Learn about internship opportunities
- Participate in MCAT Review, interview workshops, research symposiums and other opportunities

Do you want to make a difference... again?

Spring Semester

**AED Banquet** – Every spring, we initiate the newest group of UTEP’s best and brightest into Alpha Epsilon Delta, the national premedical honor society. This is a great time to meet old friends and make new ones while being a part of the academic successes of El Paso’s premedical students.

Year Round

**Speak at MPO meetings** – The Medical Professions Organization is the student club of the pre-health professions. We meet on Wednesdays at 5 p.m. to listen to speakers from all around the country talk about their medical experiences.

**Community Service** – Participating in volunteer community service activities is an important part of preparing to become a physician. Please invite us to help you in your community activities or join us in ours.

**Interviewing Workshop** – Medical school interviews take place from August to December. Join us for a day of mock interviews early in the semester where you can help prepare UTEP seniors for their upcoming medical school visits.

**Tailgating** – MPI students are among the best of the Miner Maniacs. Come join the fun as we eat, drink and cheer the Miners on to victory.

**Scholarship/Endowment**

As the cost of tuition rises, it becomes more important for us to help deserving students. You can set up a scholarship in your name or that of a loved one that will benefit premedical students at UTEP for years to come. Other gifts can support MCAT preparation, student travel, and many other activities.

**Brown Bag Lunches** – Meet with small groups of students at lunchtime to discuss topics of your interests and theirs. This is a wonderful opportunity to really get to know these great students.

**Shadowing** – Premedical students need and want shadowing opportunities in your office, clinic, or hospital. Share your experience and expertise with students and let them see what it is really like.
