Public Forum
On Care of Our Common Home:
Environment, Social Justice + Sustainable Development on the U.S.-Mexico Border

Everyone is invited! We will explore how we can address some pressing social, environmental and economic development challenges facing the border region. This effort follows Pope Francis’ call to people of all religions and backgrounds to address “the urgent challenge to protect our common home.”

This builds on the City of El Paso commitment to resilience and UTEP’s commitment to public education as well as the commitment of our partners to this regional community. This is a call to change our ecological culture for sustained development.

Join us to learn and share your ideas on actions we can all take.

Date: April 2, 2016
