Join us and prepare for the TExES™ with the English Education Program faculty.

The purpose of the Texas Examinations of Educator Standards (TExES™) Program test readiness workshop is to provide a brief overview of the English Language Arts and Reading (ELAR), Grades 7–12 (Series 231) content for prospective test takers and teacher candidates.

We will practice the following:
1. Understanding the structure of the exam,
2. Using strategies for answering the multiple-choice questions, and
3. Developing two model essays with the scoring rubric to earn full credit.

Participants will gain strategies for responding to test questions about the domains, competencies, and standards in English language arts and reading education. Join us!

Friday, November 7, 2014
1:30 PM – 3:00 PM
Hudspeth Hall, Second Floor
Room 200

“Students spend more time studying English than any other discipline. Ours is the only subject students are required to take every year.”
—Jim Burke
